use of rugged stainless steel, steel, and aluminum construction, with virtually maintenance free finishes,

Series safe deposit boxes offer attractive, low cost modular construction, and minimal upkeep.

Construction

AX series of safe deposit boxes combines 1/2" solid alloy doors faced with stainless steel with cabinets of powder coated rust-resistant steel. For high security, the doors are designed with a heavy flange which interlocks with the door jamb. The modulator

cabinets can be stacked in sections, and bolted together through pre-drilled holes in the frame, for an easy installation. The AX series can be installed against the vault wall, utilizing every inch of valuable wall space.

Locks

As standard, doors are fitted with a double nose, key changeable lock both guard and customer side, and listed by under Underwriter's Laboratories, Northbrook, Ill., USA. Locks are firmly attached to the door at four points to aid in prevention of punch attacks

All boxes are equipped with U.L. listed, double key changeable locks, in a satin brass finish.
